Professional Summary

Aspiring Data Analyst with hands-on experience in Python, SQL, Excel, Power BI, and data visualization. Skilled in transforming raw and complex datasets into meaningful insights, interactive dashboards, KPI reports. Strong understanding of statistical analysis, predictive analytics, and machine learning workflows, with practical exposure to AI and NLP applications. Passionate about AI-powered tools to improve analytical workflows, support informed decision-making, and solve real-world business problems.

Education

Shri Ram Swaroop Memorial University, Lucknow, Uttar Pradesh

Aug 2024 – Aug 2027

BCA in Data Science and AI CGPA: 8.73 / 10

NSCB Inter College, Sant Kabir Nagar, Uttar Pradesh

Apr 2023 – Mar 2024

Higher Secondary (Science) – 76.20%

NSCB Inter College, Sant Kabir Nagar, Uttar Pradesh

Apr 2021 – Mar 2022

High School (Science) – 83.50%

Technical Skills

Programming: Python, SQL, HTML, CSS

Analytics and BI Tools: Power BI, Microsoft Excel, Google Sheets, Jupyter Notebook, Google Colab,

Data Analysis Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Core Concepts: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Data Visualization, Dashboarding, Statistical Analysis and Predictive Analytics with Machine Learning

Experience

Data Analyst Intern – Elevate Labs

Jun 2025 – Jul 2025

Remote

- Cleaned and structured raw datasets using Python (Pandas, NumPy).
- Performed exploratory data analysis to identify trends and patterns.
- Built Power BI dashboards for KPI reporting.
- Automated Excel reports for business insights.

AI and Machine Learning Intern – Indian Institute of Computing Technology

June 2026 – July 2026

Remote

- Data Preprocessing, (EDA), Feature Engineering, Regression, Model Training, and Model Evaluation.
- Built a movie recommendation system using machine learning algorithms.
- Worked on model training and predictive analytics workflows.

Projects

HR Analytics – Predict Employee Attrition [GitHub]

Jun 2025 – Jul 2025

Python, Pandas, SQL, Matplotlib, Power BI

- Cleaned and preprocessed HR datasets using Python.
- Performed EDA and correlation analysis on attrition factors.
- Built Power BI dashboards for HR KPI monitoring.
- Generated insights for employee retention analysis.

E-Commerce Analytics Dashboard [GitHub]

Aug 2025 – Sep 2025

Python, Pandas, MySQL, Seaborn, Power BI

- Analyzed sales and customer behavior data using SQL and Python.
- Designed interactive KPI dashboards in Power BI.
- Implemented filters across time, geography, and product segments.

House Price Prediction [GitHub]

Aug 2026 – Sep 2026

Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

- Performed data preprocessing and EDA to analyze factors influencing house prices.
- Applied feature engineering and regression techniques for price prediction.
- Trained and evaluated machine learning models using appropriate performance metrics.

Certifications

- Data Analytics Internship Certificate – Elevate Labs
- Python for Data Science – IBM SkillsBuild
- AI and Machine Learning Internship Certificate – IICT
- 30 days PostgreSQL Certificate –skillcourse
